Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/16/2005 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 6, 7, 10-12 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Etesse (European Patent Application No. 0 630 8221 A1, previously cited) and Pomeranz (newly cited).

Etesse discloses the claimed device, especially the handle of the bag being defined by an oblong hole. However, Etesse does not show the oblong handle hole being reinforced by a layer of additional material that is less than the vertical height of the bag sidewalls and attached adjacent to the handle. Pomeranz discloses that it is known in the art to provide a reinforcing structure in the form of a layer of additional

material 20 that is less than the vertical height of the bag sidewalls and attached adjacent to an analogous oblong handle . It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the oblong handle of Etesse with the additional material of Pomeranz, in order to reinforce the oblong handle.

Moreover, Pomeranz discloses that it is known in the art to provide a reinforcing ring 21 within the oblong handle in addition to the reinforcing structure. It would have been obvious to a person having ordinary skill in the art at the time the invention was made to provide the oblong handle of Etesse with a reinforcing structure and reinforcing ring positioned within the oblong handle as taught by Pomeranz, in order to provide a smooth and convenient grip by which the bag may be carried.

Response to Arguments

4. Applicant's arguments with respect to claims 1, 6, 7, 10-12 and 15 have been considered but are moot in view of the new ground(s) of rejection.
